

Transport & Logistics

Protect your assets. Build your business.

Established in 1999, Allshelter are Australian manufacturers of relocatable and permanent fabric and hard top structures, that provide high quality weather protection to Australia and across the world.

Fabric structures offer a versatile and innovative shelter solution, addressing the evolving requirements of the transport and logistics sector. With the ability for rapid deployment and customisation, these structures enable logistics companies to promptly adapt to shifting demands.

In the pursuit of operational expansion, logistics companies are turning to fabric structures as an efficient solution. With a variety of mounting options and adaptable sizes, our shelters can be tailor-made to precisely align with your specific requirements.

Weather Protection

Relocatable

Easy Installation

Cost Effective

Engineered to Last
